

Paul D. Corona, M.D.

Have you heard of HIPAA?

This is the *Health Insurance Portability & accountability Act of 1996* that was put in place to protect the confidentiality & security of personal health data.

Our office complies with these standards, so we would like to know how to relay pertinent health information to you if the doctor cannot get a hold of you directly.

Please check all that apply:

It is **OK** for the doctor to leave a message with lab/test results.

Please leave messages at this number (s):

Home # _____

Cell # _____

Work# _____

It is **OK** to fax labs/studies to this fax # _____

It is **OK** to give my test results to a family member listed below:

It is **OK** to give my account balance and to mail my statements to:

Name _____ Relation: _____

Patients Signature _____ Date _____
